I am satisfied that Cancer is hereditary in my family.

My father died of it, a sister of my mother died of it, and
my own sister died of it. My feelings may be imagined,
then, when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way that it could not be out out. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family. I took Switt's Specific, which, from the first day, forced out the poison, and continued its use until I had taken several bottles, when I found myself well. I know that S. S. S. cured no.
